### Professional experience

**01/08/2020 –Present. Assistant Lecturer, Department of Nursing, KNUST.** I teach and facilitate learning for undergraduate and post graduate courses, Indexing and verification of students for licensure professional examination and preparation and coordination for licensure professional examination. I also serve as a mentor for scholars of Master Card Foundation in the College of Health Science to equip them with the right mind-set to complete their education.

### Responsibilities

1. Teaching and conduct of research in courses at undergraduate level
2. Offer of research assistance to postgraduate students at the department
3. Supervision of students' project work, care study and dissertation
4. Theoretical and clinical assessment of students
5. Contribution of knowledge in the field of nursing through publishing in refereed journals
6. Liaise with hospitals and preceptors for coordinating and scheduling of all clinical courses with the department
7. Improve student's motivation and interest in clinical practice

## 8. Counselling and mentoring of students

### Taught courses

- Medical nursing
- Basic nursing
- Introduction to nursing and midwifery, professional adjustment
- General Nursing and Clinical supervision of students
- Project and care study supervision

**10/03/2012 to 01/08/2021: Principal Nurse Educator, ST Michael Nursing and Midwifery Training College, Pramso.** I facilitated the teaching and learning of diploma nursing and midwifery students in both classroom and clinical areas. I supervised over 50 diploma clinical case study projects to a successful completion. I also offered my services in numerous ways to the college including championing a National institutional and programme and Professional accreditation status in my capacity as the chairperson of the accreditation team and quality assurance committee.

### Responsibilities

1. Plan and supervise activities of tutors and supporting staff
2. Monitor own performance against agreed objectives as prescribed in the annual and midyear performance appraisal forms
3. Act as a role model for students and staff
4. Organize and participate in the matriculation and graduation of students
5. Supervising students projects and family centred maternity care study
6. Contribute to the maintenance of a suitable learning environment in the institution
7. Support staff and students and assertively deal with conflict
8. Plan and supervise practical/field work of trainees on orientation/internship regularly
9. Contribute to the planning and implementation of orientation programme for preceptors and new staff
10. Teaching and organizing demonstration sessions and field trip on supply chain nursing management and Nursing Practice for students

### Taught courses

- Medical nursing
- Anatomy and physiology
- Supply chain management
- Regenerative health and nutrition in nursing and midwifery
- Professional adjustment in nursing and midwifery
- Pharmacology

**10/02/2005 to 01/08/2007: Clinical Nurse, Tepa District Hospital.** As the Charge nurse, I managed a 30 capacity bed capacity and provided care to a range of patients admitted at the general ward. As a preceptor, I trained students on best practices and supervised their clinical duties to in achieving their learning objectives. As a member of the Ambulance team, I diligently assessed, coordinated accompanied patients transferred due to their critical conditions whenever it became necessary.

### **Responsibilities**

1. Supervising students on clinical placement to achieve their set objectives.
2. Providing instant care and facilitating referrals for patients during health emergencies
3. Collaborating and coordinating with physicians and other healthcare professionals to create and evaluate customized care plans
4. Using the nursing process tool to diagnose treat clients for quick recovery
5. Maintaining a safe and hygienic working environment in accordance with standardized healthcare procedures
6. Providing necessary education and guidance to clients, families and the community on health maintenance and disease prevention
