1. EDUCATION: Institutions attended with dates and Academic Degrees earned with dates (See Table 1)

Table 1: Education

Institution	Year(s) of attendance	Degree/Certificate earned with dates
Mfantsipim School	1988 – 1993	GCE O’ and A’ Levels 1991 and 1993 respectively.
University of Science and Technology (UST)	1994 – 1999	B. Pharm (First Class Hons) , 2000.
Kwame Nkrumah University of Science and Technology (KNUST)	2000 – 2002	MSc. Pharm. Analysis and Quality Control , 2003.
University of Greenwich (UK)	2009-2012	Doctor of Philosophy (PhD) , 2012
Kwame Nkrumah University of Science and Technology (KNUST)	2013-2015	Commonwealth Executive Masters in Public Administration (CEMPA) , 2015

Honours, Awards and Fellowships

SN	Award	Date
i	Multi grant _5 TH KNUST Research Fund (KReF) award	July, 2020
ii	Instrumental Access Award – (Seeding Labs USA)	2017-2018.
iii	Commonwealth Fellow	Oct. 2017- March, 2018.
iv	Second best Poster Presenter Post graduate day, Faculty of Pharmacy and Pharmaceutical Sciences, KNUST.	2015
v	Second best Poster Presenter, GRASAG Annual Research Conference, KNUST	2014
vi	Commonwealth Scholarship and Fellowship Plan	2009 – 2012
vii	Merit Award (First class, KNUST)	1997

Funding, Financial/Resource Mobilization and Grants

SN	Institution	Amount	Date
i	Symposium on the theme: The State of the Integration of Herbal and Orthodox Medicine in Ghana, the Role of KNUST: Sponsorship from Kantanka, Ebenage, COA and Hollard Insurance	GhC19,700	August, 2022
ii	Curriculum development for Postgraduate studies in Herbal Medicine from COA Research and Manufacturing Company Limited	GhC25,000	May, 2022
iii	Department of Herbal Medicine 20 th Anniversary donation by Panacea Pharmacy	GhC35,000	July, 2021
iv	Facilitator, donation of KN95 Face Masks to KNUST from Thomas Scientific/Seeding Labs	\$10,000	Feb.2021
v	KNUST Research Fund (KReF)	GhC30,000	July, 2020
vi	RSC_ Award University of Greenwich/KNUST Research Exchange	£10,000	Feb-Mar. 2020

CURRICULUM VITAE – PROF. ISAAC AYENSU

vii	Instrumental Access Award from Seeding Labs, USA	\$110,000	(2017-2018)
viii	Coordinator, Donation to Faculty of Pharmacy by 1999 year group towards Refurbishment of Drug analysis and quality control lab for Seeding Labs instrumental Access equipment.	GhC35,722	May, 2018
ix	DFID Grant for 6 months Post-Doctoral Fellowship at University of Greenwich, UK.	£15,000	Oct. 2017 – March, 2018
x	Equipment Donation to Department of Pharm. Chem: Findenser (400mm x 72mm, with Anodised aluminium finned Jacket and Borosilicate glass from Radleys, UK		May, 2018
xi	Grant under the Building Stronger Universities Phase Two (BSU PHASE II), WP3 Programme to research on “Safe Water for Good Health”.	\$9, 923	May-July, 2016
xii	DFID Funding for three year PhD Research at University of Greenwich, UK- “Novel formulations for mucosal delivery of protein based drugs”	£62,000	Oct.2009 –Oct. 2012

Professional Affiliations

SN		Date
i	ISPOR	2019 to date.
ii	University Teachers Association of Ghana -	2003 to date
iii	Pharmaceutical Society of Ghana	2001 to date
iv	American Association of Pharmaceutical Sciences (AAPS- USA)	2011 to 2013
v	Academy of Pharmaceutical Scientists (APS-UK	2010 to 2013
vi	Royal Society of Chemistry (UK) - Associate Member	2010 to 2013

2. Work Experience

UNIVERSITY Teaching and/or Research experience with dates

- a. **Academic Ranks held and subjects taught**
 - i. **Professor:** 2023 –Date: Department of Pharmaceutical Chemistry KNUST (Ghana)-
Lecturing Organic Pharmaceutical Chemistry, Physical Chemistry, Medicinal Chemistry, Basic Medical Chemistry and Drug analysis. Co-author of laboratory manuals and supervision of Basic Organic, Physical, Medicinal Chemistry and Drug analysis Laboratories, Supervision of BHM and PharmD undergraduate students.
Design of MSc. Drug analysis laboratory, Electrochemical Methods, Research Methodology and Ethics, Separation Methods (MPhil. and PhD students).
Supervision of MPhil and PhD students
 - ii.
 - iii. **Associate Professor:** 2019 –2023: Department of Pharmaceutical Chemistry KNUST (Ghana)-
Lecturing Organic Pharmaceutical Chemistry, Physical Chemistry, Medicinal Chemistry, Basic Medical Chemistry and Drug analysis. Co-author of laboratory manuals and supervision of Basic Organic, Physical, Medicinal Chemistry and Drug analysis Laboratories, Supervision of BHM and PharmD undergraduate students.
Design of MSc. Drug analysis laboratory, Electrochemical Methods, Research Methodology and Ethics, Separation Methods (MPhil. and PhD students).
Supervision of MPhil and PhD students
 - iv. **Senior Lecturer:** 2013 – 2019: Department of Pharmaceutical Chemistry KNUST (Ghana)-
Lectured in all courses taught at the Department; Org. Pharm. Chem, Physical Chemistry, Medicinal Chemistry and Drug analysis. Writing laboratory manuals and supervision of Basic Organic, Physical, Medicinal Chemistry and Drug analysis Laboratories, Supervision of PharmD and BHM Projects, Design of MSc. Drug analysis laboratory, Electrochemical Methods, Research Methodology and Ethics (MPhil

. and PhD students). Supervision of MPhil and PhD students

- v. **Lecturer:** 2003 - 2013: Department of Pharmaceutical Chemistry KNUST (Ghana)- I lectured in all course including; Organic Pharmaceutical Chemistry, Physical Chemistry, Medicinal Chemistry and Drug analysis. Others include writing laboratory manuals and supervision of Basic Organic, Physical, Medicinal Chemistry and Drug analysis Laboratory, Supervision of B. Pharm Projects, Design of MSc. Drug analysis laboratory, Statistics in Pharmaceutical analysis and Electrochemical Methods (MSc. students).
- vi. **Teaching Assistant:** 2002: Department of Pharmaceutical Chemistry, Faculty of Pharmacy, KNUST. Teaching and supervising undergraduate laboratory sessions, assisting in assessing and grading students.
- vii. **Demonstrator:** 2000: Department of Pharmaceutical Chemistry, Faculty of Pharmacy, KNUST. Teaching and supervising undergraduate laboratory sessions, assisting in assessing and grading students.

b. Research areas/expertise:

- Medicinal plants isolation and characterization.
- Pharmaceutical analysis, characterization and quality control,
- Pharmaceutical and heavy metal contaminants in the environment
- Novel drug formulation and development.
- Medicinal Chemistry
- Novel Application of hydrotropic Solubilization technique in drug analysis.
- Cosmetological studies

c. Current and recent research projects:

On-going projects

- i. Towards Harnessing the full Therapeutic Potential of Xylopic Acid: Studies on

- selected topical gray areas
- ii. Phthalates in Pharmaceuticals
 - iii. Evaluation of the Anticancer, Antioxidant and Phytochemical Constituents of *Adansonia Digitata* L. (Malvaceae)
 - iv. Exploratory Bioavailability studies on Herbal products
 - v. Development and Validation of Stability indicating HPLC Method for selected Herbal Pharmaceuticals
 - vi. Filtration systems for water bodies contaminated by heavy metals from mining activities and pharmaceutical residues.
 - vii. Development and Validation of Stability indicating HPLC Method for the Simultaneous Estimation of Selected Analgesics
 - viii. Anti-Infective Extracts and Phytoconstituents Isolated from *Zea Mays* and other Ghanaian Medicinal Plants
 - ix. Synthesis of ‘clicked’ compounds and their phosphonium salts as targets against some tropical infections.
 - x. Isolation, characterization and microbial assay of a biomarker (Bergenin) and development of RP-HPLC method for the quality control of the roots of *securinega virosa*.
 - xi. Detection and quantification of aphrodisiac adulterants in alcoholic beverages in Ghana
 - xii. Qualitation and Quantification of Tryptophan in Hausa Koko (Spicy Millet Porridge): A Ghanaian Beverage
 - xiii. Novel Application of hydrotropic Solubilization technique in the formulation and analysis of poorly soluble drugs
 - xiv. Evaluation of the Anticancer, Antioxidant and Phytochemical Constituents of *Adansonia Digitata* L. (Malvaceae)
 - xv. Phytochemical Screening, Antimicrobial, Antioxidant and Anti-inflammatory activities of various extracts of the leaves and stem bark of *Allanblackia parviflora* (A Chevalier)
 - xvi. Novel Application of hydrotropic Solubilization technique in the formulation and analysis of poorly soluble drugs

- xvii. Comparative quantitative and activity analysis of antibiotics. Case study of NHIS and non-NHIS medicines
- xviii. Determination of levels of lead in popularly patronised cosmetic products
- xix. Antimicrobial activities and phytochemical screening of the stem bark of *Trichilia tessemannii* (Harms) of the family Meliaceae.
- xx. Development characterisation of laminated thiolated chitosan-based lyophilised xerogels for potential buccal delivery of macromolecules.
- xxi. Effect of protease enzyme inhibitors on mucoadhesion and release kinetics of macromolecules from laminated thiolated-chitosan freeze-dried xerogels.
