- GHS 400k GETFund Scholarship for 23 MSc Students (Former TAs) in 4 years

Collaborations with Institutions and Industry

Collaborations and MOUs implemented.

1. Domod Roofing Ltd – MOU signed with firm for Awards and Internship to Overall Best 2nd year students in BSc CTM & BSc QSCE programmes and placement for National Service
2. GETFund – Initiative to provide the GETFund with students graduating with BSc Quantity Surveying and Construction Economics for national service assignment.
3. Ashanti Regional Coordination Council – annual training workshop for Directors, Engineers, Budget Officers, QS, etc. on project and contract management practices.

Aug. 16 - Jul. 17

Dean.

School of Business,
KNUST, Kumasi.

SUMMARISED RESPONSIBILITIES

- Headship of School and Chairmanship of School Board.
- School leadership, effective and efficient governance.
- Industrial collaboration and linkages with School.
- Effective management of academic programmes and curricula.

SUMMARY ACHIEVEMENTS

General Academic and Administrative

- Restructured undergraduate admissions to promote effective scholarship.
- Aligned postgraduate programmes with international standards and refocused research degrees to increase quality and depth of research work.
- Initiated the strengthening of department for effective micro management.
- Increased faculty strength by 20% with more qualified applicants waiting.
- Increased awareness among faculty members in adherence to procedure.
- Relunched School's website with revised faculty profile

Financial and Resource Mobilisation

Balanced financial resource management through increased revenue from quality and targeted programmes and industry sponsorship/partnership.

- 42% increase in revenue from GHS 9.009m to GHS 12.840m.
- 38% reduction in expenditure from GHS 1.758m to 1.096m.
- GHS 300,000 awards scheme from Beige Foundation.
- GHS 160,000 Toyota Hi-Lux vehicle for the school.

Collaborations with Institutions and Industry

Completed collaborations and partnerships to improve visibility and international presence. Exposed faculty members to collaborative research, proposal writing and career development with partners and collaborators.

Summary of collaboration concluded under my tenure of office.

1. International Finance Corporation, Ghana Office - Capacity building of faculty within KSB for the development of market specific curriculum for corporate governance.
Grant of \$178 received for the training of trainers.
2. Beige Group, Ghana - Internship for 3rd year Students and awards for selected graduating students.
3. Birmingham City University, UK - Organisation of foundation/pre-master courses for students, joint postgraduate programmes and research.
4. Maastricht School of Management, Netherlands - Joint research partnership in proposal writing and bidding.
5. Bordeaux Ecole de Management (BEM), Dakar, Senegal - Joint research with faculty members with interest in Finance, curriculum development, student and faculty exchange, reciprocal placement and internship.

Aug. 15 - Jul. 16

Head

Department of Building Technology,
KNUST, Kumasi.

SUMMARY RESPONSIBILITIES

- Headship of Department and Chairmanship of Departmental Board.
- Department leadership and effective and efficient governance.
- Industrial collaboration and linkages with faculty.
- Effective management of academic programmes

SUMMARY ACHIEVEMENTS

General Academic and Administrative

- Led the Department to 3rd position ranking in the University in 2015/16 with 77 publications by 14 lecturers up from 64 the previous academic year.
- Established a 12-seater study room for Research students.
- Implemented residence requirement for underperforming MSc students to be closely monitored with their research (dissertation) work.
- Established monthly student colloquium in addition to departmental research seminars for research students.
- Successfully implemented paperless distribution of circulars and notices.
- Activated the departmental website to increase visibility.

Financial and Resource Mobilisation

Improved revenue sources and base of the department through increased MSc admissions. Achieved excellent Lecturer-Student exchanges, quality delivery of lectures and conducive (air-conditioned lecture rooms fitted with LCD projectors and new furniture) teaching environment. Financially, the following were achieved during my headship tenure.

- Generated GHS 2.0m from demand-driven 1-year postgraduate taught programmes.
- Invested GHS 600,000 of departmental funds that was sitting idle in our accounts.

- Introduced early-bird discount fee system for postgraduate programmes that improved fees payment by over 50%.
- Instituted a departmental budget committee to review and approve departmental budget leading to savings of nearly 25% of staff remuneration through tight monetary controls and strict adherence to budget line items.
- Successfully negotiated a competitive investment rate for a GHS 100,000 research fund set up by past MSc students of the department and some industrial partners to assist needy postgraduate research students.

Dec. 14 - Jul. 15

Head

Department of Building Technology,
KNUST, Kumasi.

SUMMARY RESPONSIBILITIES

- Headship of Department and Chairmanship of Departmental Board.
- Department leadership and effective and efficient governance.
- Industrial collaboration and linkages with faculty.
- Effective management of academic programmes

SUMMARY ACHIEVEMENTS

General Academic and Administrative

- Restructured Integrated Project at the undergraduate level to bring more focus on professional practice and office attendance.
- Improved the learning environment for the final year students.
- Initiated the process of acquiring new building for lectures, offices and cafeteria facilities for the department using IGF.
- Started the compilation of database of all past student pursuing further studies abroad and those who have completed to provide guidance to prospect students on scholarship starting with national service personnel in the department.
- Initiated the recruitment of new lecturers to replace retiring members.
- Established the postgraduate desk to deal with administrative and financial matters in relation to postgraduate programmes in the department.

Financial and Resource Mobilisation

My appointment was at end of the first semester when all matters of financial nature had been taken and implemented. My focus was, therefore, to review and improve or sustain the system in place and viability of the programmes. The exercise yielded the following results:

- Generated GHS1.8m from demand-driven 1-year postgraduate taught programmes
- Instituted the payment of postgraduate fees into the department proper tracking and monitoring revenues.
- A new fee monitoring system based on payments lodged at the bank and feedback.
- Strict control and clear demarcation of sources of expenditure.

TEACHING

UNDERGRADUATE

Capable of teaching introductory core subjects in Construction Technology and Management.

Specific subjects are:

- Introduction to Materials and Construction (Year 1)
- Introduction to Management in Construction (Year 1)
- Introduction to Building Management (Year 2)
- Plant Management (Year 2)
- Concrete Technology (Year 3)
- Concrete Components and Finishes (Year 3)
- Human Resource Management (Year 4)
- Entrepreneurship Management (Year 4)

POSTGRADUATE

- Research Methods and Design
- Construction Resource (Human, Materials & Plant) Management
- Construction Planning and Scheduling
- Sectorial Procurement Management

THESES EXAMINATIONS/SUPERVISION

In addition to about 300 BSc project worked supervised and examined over the past 25 years, I have also been involved in higher level research supervision at the MSc, MPhil and PhD levels with excellent completion rate and time. More than 60% of students under my supervision publish at least 1 journal at the MPhil level and 3 at the PhD level.

A summary of completed postgraduate theses supervision and examination and on-going research supervision are below:

Completed MSc/MPhil Supervision/Examination (Summarised)

Supervisor

MPhil Procurement/Construction Management (12 candidates)

MSc Construction/Procurement/Project Management (135 candidates)

Internal Examiner

MPhil Construction/Procurement Management (8 candidates).

MSc Construction/Procurement/Project Management (110 candidates).

PhD Supervision (completed)

PROMOTION OF KNOWLEDGE

I continue to conduct research and publish high quality journal papers and conference proceedings in my area of specialisation: Construction Project Delivery (Performance and Innovations) within the Ghanaian construction industry. The focus is on procurement, performance measurement and contract administration. A summary of my on-going research and publications, mostly in collaboration with colleagues with similar research interests and research students are highlighted below.

ON-GOING RESEARCH

1. Innovative procurement approaches within the Ghanaian Construction Industry.

The focus is to explore innovative construction project procurement approaches that can be used within the Ghanaian construction industry. An overview and critique of procurement systems are being undertaken to highlight their innovativeness and also single out key factors for adoption, adaptation and implementation within the Ghanaian Construction.

2. Performance measurement and improvement

The study is exploring means through which the performance of the Ghanaian construction can be objectively measured. Successful methods used in other jurisdiction are under review to map out key parameters that can be used within the local context. The measurement will lead to the development of a framework and an approach for continuous performance improvement of the industry.

3. Alternative contract administration practices.

The continued relevance of retention, advance payment and other methods that can be employed to improve the administration of contracts are being examined. The aim is to highlight the principles underling these contract administration practices in order to propose more effective and efficient alternative methods or approaches. Results will also assist in capacity building within the local industry.
