5. MANAGERIAL/ADMINISTRATIVE POSITIONS HELD AND ACHIEVEMENTS

Head of Department, Department of Supply Chain and Information Systems, KNUST School of Business

I have had the privilege to serve as Head of the Supply Chain and Information Systems Department. Some notable achievements during my leadership are fostering industry-academia partnerships, facilitating partnerships between KNUST and other universities and professional bodies, promoting grantsmanship and achieving high faculty development.

1. Industry-academia partnership

A. Engaging With Industry Stakeholders

These engagements have led to the introduction of new programs such as MSc. Business Analytics and MSc. Aviation Management. Currently working on accreditation to run BSc. Pharmaceutical Supply Chain, MSc. Agricultural Supply Chain, and MSc. Healthcare Supply Chain.

B. Driving Curriculum Innovation

This innovation offers us the opportunity to align our curriculum with that of relevant professional bodies like the Chartered Institute of Procurement and Supply (CIPS), which grants our postgraduate students the qualification to apply for the MCIPS certification upon graduation. This innovation resulted in a remarkable increase of about 230% in our uptake (from a three-year

average pre-innovation intake of 168 students to a three-year post-innovation intake of 556 students). Currently the department is aligning its curriculum with the Chartered Institute of Logistics and Transport (CILT).

C. Organizing Guest Lectures and Workshops

I proactively organize these events, inviting distinguished speakers who possess in-depth knowledge and experience in supply chain and information systems to share their practical knowledge with our students.

D. Cultivating Alumni Engagement

Engaging our esteemed alumni who hold positions in various industries has been pivotal in strengthening industry-academia partnerships. The engagements have enhanced the department's internship and job placement initiatives and industrial visits drive.

2. University – University and University – Professional Bodies Relationship Management

Under my leadership, I have championed close working relations with other universities and professional bodies, leading to the signing of MOUs with these partner organizations. In particular, I have facilitated close partnerships, leading to the signing of the following MOUs:

- KNUST and University of Texas Rio Grande Valley.
- KNUST and Chartered Institute of Logistics and Transport.
- KNUST and Chartered Institute of Procurement and Supply.
- KNUST and Bio Supply Management Alliance.

I am currently facilitating collaboration and eventual signing of an MOU between KNUST and University of South Carolina State University.

3. Progression of Colleague faculties

Through my leadership, colleagues progress as follows:

- Four (4) attained their terminal degrees.
- Three (3) progressed from Lecturer to Senior Lecturer.
- One (1) progressed from Senior Lecturer to Associate Professor.

Currently pursuing the agenda of getting colleague Lecturers promoted to their next academic ranks through collaborative research among the faculties.

Grantsmanship

1. **Member of the Sub-Contractors – US\$1.27 million Feasibility Study for the Zipline Aerial Health and Distribution Service Expansion**

The project aims to assess the potential expansion of Zipline, a drone logistics company, into new geographical areas and the development of innovative business models to enhance its healthcare logistics services. The study, led by the University of Texas Rio Grande Valley with subcontractors from Ghana, specifically Faculty from the KNUST School of Business Supply Chain and Information Systems Department, is budgeted at \$1.27 million. The study does not only evaluate the viability of Zipline's healthcare services expansion but also its potential to improve access to e-commerce, postal, and agricultural products and services in remote and underserved areas, thereby contributing to local economic growth and reducing delivery times and costs. By employing experienced faculty consultants in feasibility and market studies, supply chain management, and data analytics, this project aims to drive positive socio-economic impacts while enhancing Zipline's existing delivery systems. The study focuses on Ghana and Nigeria as the targeted countries for the potential expansion.

2. **Host, Carnegie African Diaspora Fellowship Program (CADFP)**

- Won over US\$ 50,000 Carnegie African Diaspora Fellowship Program (CADFP) grants on three consecutive occasions
- The CADFP grants afforded KNUST to host African Diaspora scholars from the United States to work with the host on collaborative projects. For KNUST, the emphasis of our collaboration was on **Graduate Student Training, Mentoring, and Research Collaboration**
- The project focuses on training and mentoring of graduate students, through organization of workshops and seminars and supervision of doctoral student research
- The Project also focuses on mentoring faculty at the KNUST School of Business (KSB) on research processes and collaborating with Scholars to develop research projects that would lead to potential articles published in high impact journals. Achievements include publications in high impact journals and PhD students successfully defending their projects.

3. Head of The Centre for Applied Research and Innovation in Supply Chain - Africa (CARISCA) Digitalization Group

Published a white paper titled '*How do Digital Technologies Improve Sustainable Performance among Smallholder Farmers*'.

4. CARISCA PhD Supervisory Committee Member

Currently, I am a member of the PhD supervisory committee team supervising six (6) CARISCA-funded PhD candidates. Four (4) are on the verge of submitting their final works.

5. CARISCA Research Team Member

I am a member of the research team '*An Assessment of Supply Chain Visibility Impact on Ghana's Healthcare System. The Case of the Ghana Integrated Logistics Management Information System (GhiLMIS)*.'

- Market research for Bosbel Limited, a vegetable processing company.
- Business Plans for Empretec Ghana clients including those for Mfum Farms, Sinapi Aba Savings and Loans Limited, Ashanti Curl and Lumber Products, Felibat Coldstores, and Hippo Limited.

Preparation/Needs Assessment/Software Evaluation & Selection (Under ISFund Support) 2005

1. **Atwima Kwanwoma** Rural Bank (Preparation, Needs Assessment): Assisted the bank to segregate the microfinance operations from the Traditional banking operations. Also assisted the bank to prepare and document its information needs for eventual roll out.
2. **ADRA Microfinance**, an MFI in Accra – Implementation
3. **CRAN-Cape Coast Branch** – Software Training & Implementation

Needs Assessment:

4. **2001/2002:** IT requirements for Sinapi Aba Trust (SAT), a large FNGO who was transforming to a regulated Savings and Loans Company. The assignment formed part of a contract to Asamoah & Williams to prepare

a Business Plan to support the application to the Bank of Ghana for a license, as well as strategic planning for the new transformed Savings and Loans company. SAT's strategic investor is Opportunity International (OI) in the USA.

5. **2002/2003:** Business needs assessment study for Community Action for Development (CAD), an FNGO based in Tamale, Northern Ghana. The assignment formed part of a consultancy contract between African Development Fund (ADF) and Asamoah & Williams Consulting.
6. **2002/2003:** Business needs assessment study for Amasachina Self Help Association (ASHA), an FNGO based in Tamale, Northern Ghana. The assignment formed part of a consultancy contract between African Development Fund (ADF) and Asamoah & Williams Consulting.
7. **2003:** Business needs assessment study for Maat-N-Tudu, an FNGO based in Tamale, Northern Ghana. The assignment formed part of a consultancy contract between GTZ and Asamoah & Williams Consulting.

Software Evaluation:

8. **2003:** Evaluation of Loan Performer, an MIS software package from Crystal Clear Software. The assignment was undertaken as a follow-up to the Needs Assessment Study, with the objective of identifying a suitable IT solution for the two FNGOs being financed by ADF in Tamale.
9. **2003:** Evaluation of Credit Appraisal and Portfolio Manager (CAPM), a credit management software from SunSystems, Ghana. The assignment was undertaken on the request of GTZ Ghana to determine the suitability of the package for Maat-N-Tudu.

MIS Implementation:

10. **2004:** User Training on Loan Performer ASHA, Tamale.
11. **2004:** Implementation of Loan Performer at ASHA, including data migration (file conversion) and everyday operation.
12. **2004:** Implementation of Loan Performer at Christian Rural Aid Network (CRAN), including data migration (file conversion) and everyday operation.
